Extensions and Amendments in Software Version 76

Things To Know – An Overview

Innovations

- | Extension or new addition of the antiglare high beam function for Audi A5, Audi S5, Audi A6 e-tron, Cupra Terramar, Skoda Scala und VW T-Cross.
- | The vertical and horizontal measured values in percentage (%) are displayed with two digits after the decimal point.
- | The >Measurement< menu now includes additional information telling the user that a diagnostic tool may be required.

Revisions

- | The vehicle database has been updated by 508 vehicles.

SEG V

Functions According to Manufacturer

This list merely gives a basic overview of the scope of our data extensions. A complete list with all the model additions for every manufacturer would be simply too extensive.

Extended and Revised Manufacturers

The following list comprises the vehicles which require a special procedure for calibration / alignment of the light distribution, such as the antiglare high beam.
